ARLINGTON HIGH SCHOOL

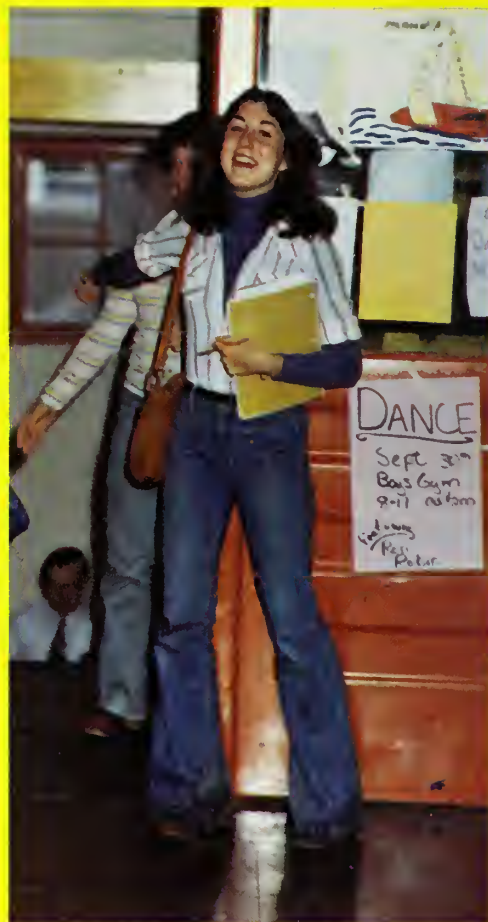

1978

Men exist for the sake of one another.
Marcus Aurelius

This is a
high class
joint ---

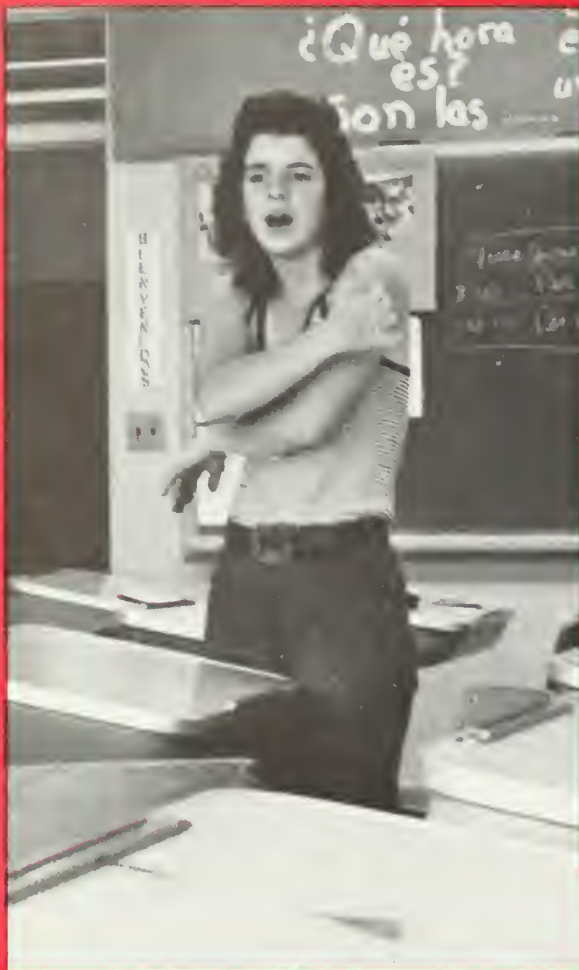

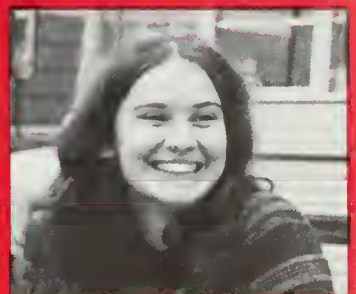

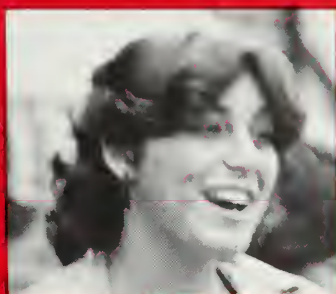

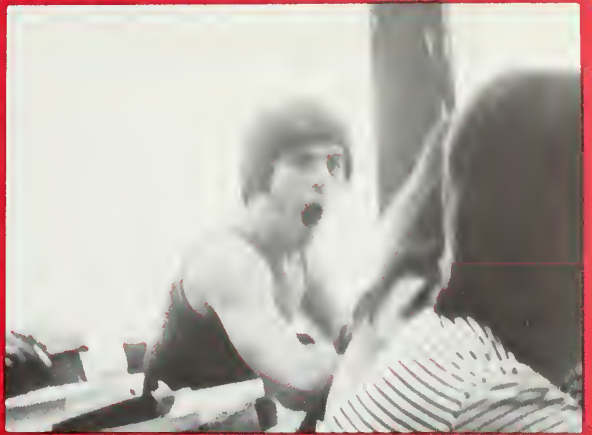

--- act
respectable

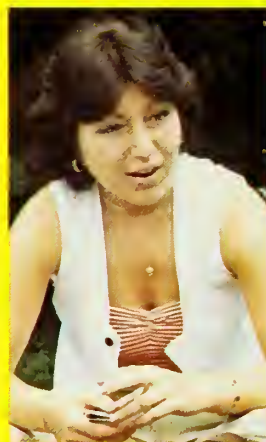

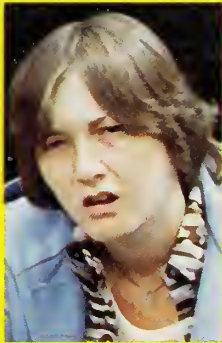

So we meet and part
and maybe meet again

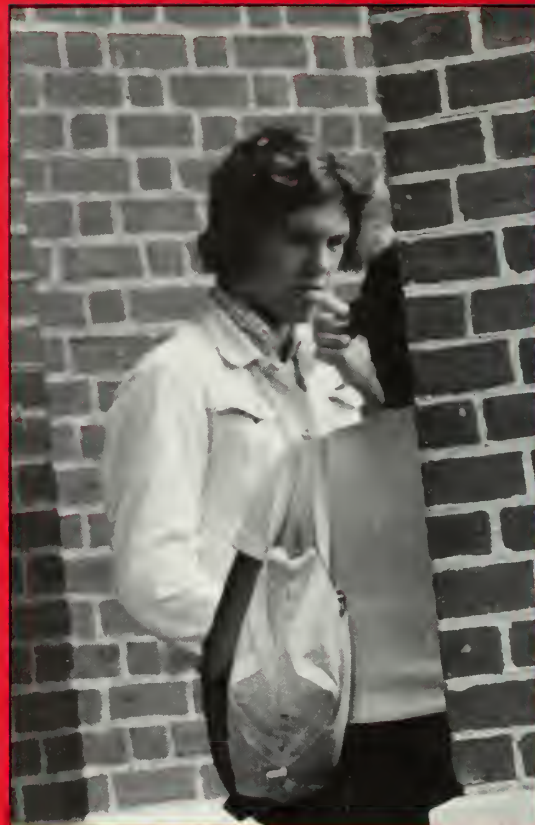

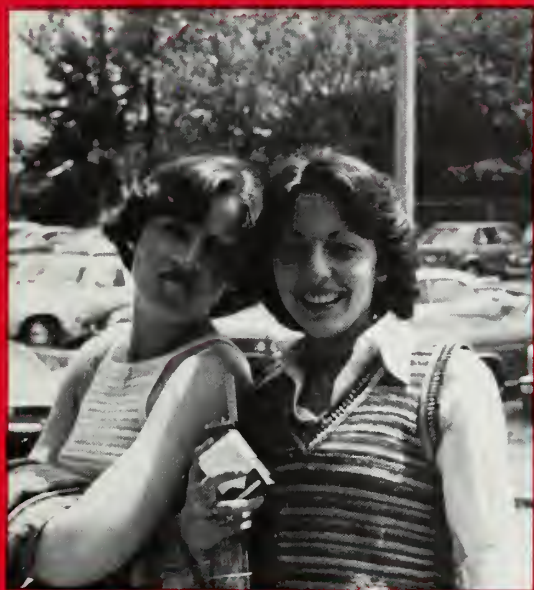

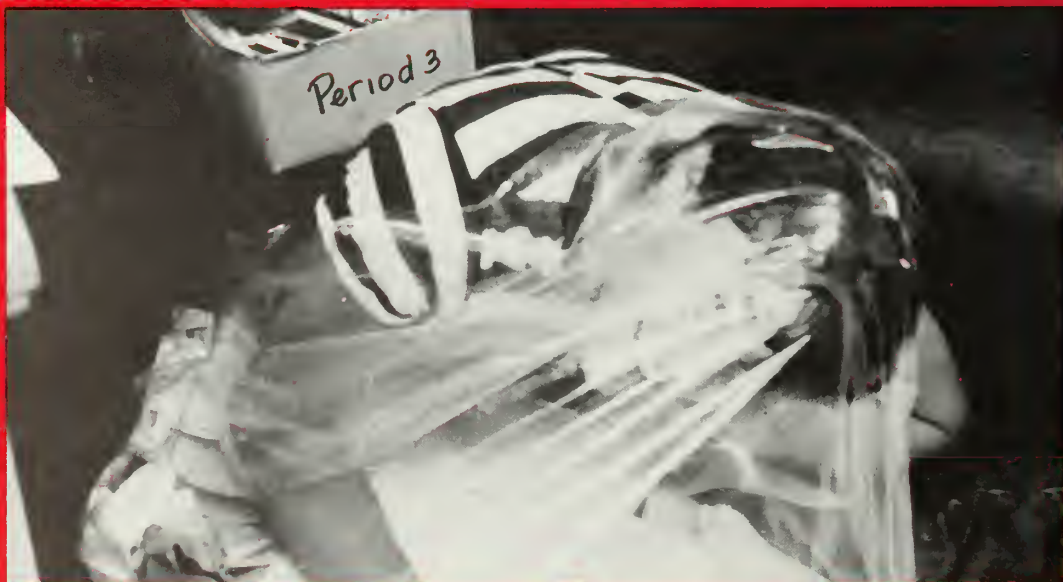

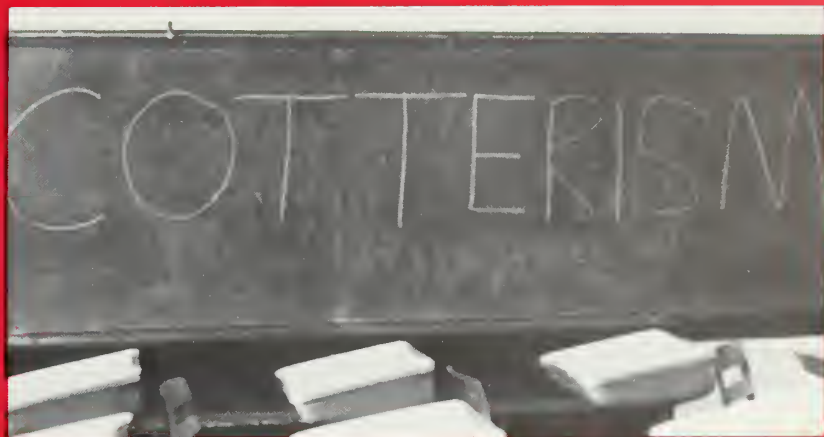

Be yourself.
Who else is better qualified?

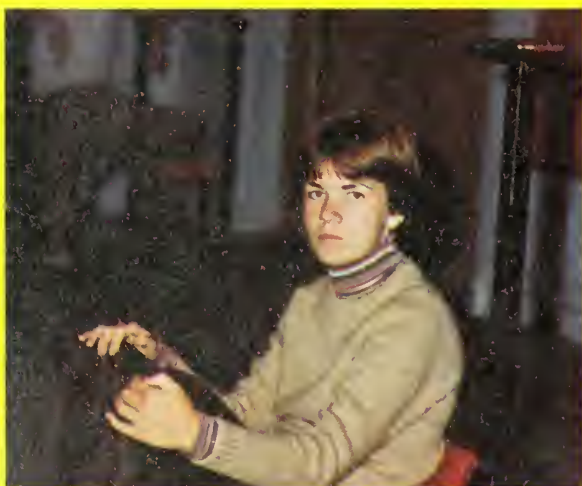

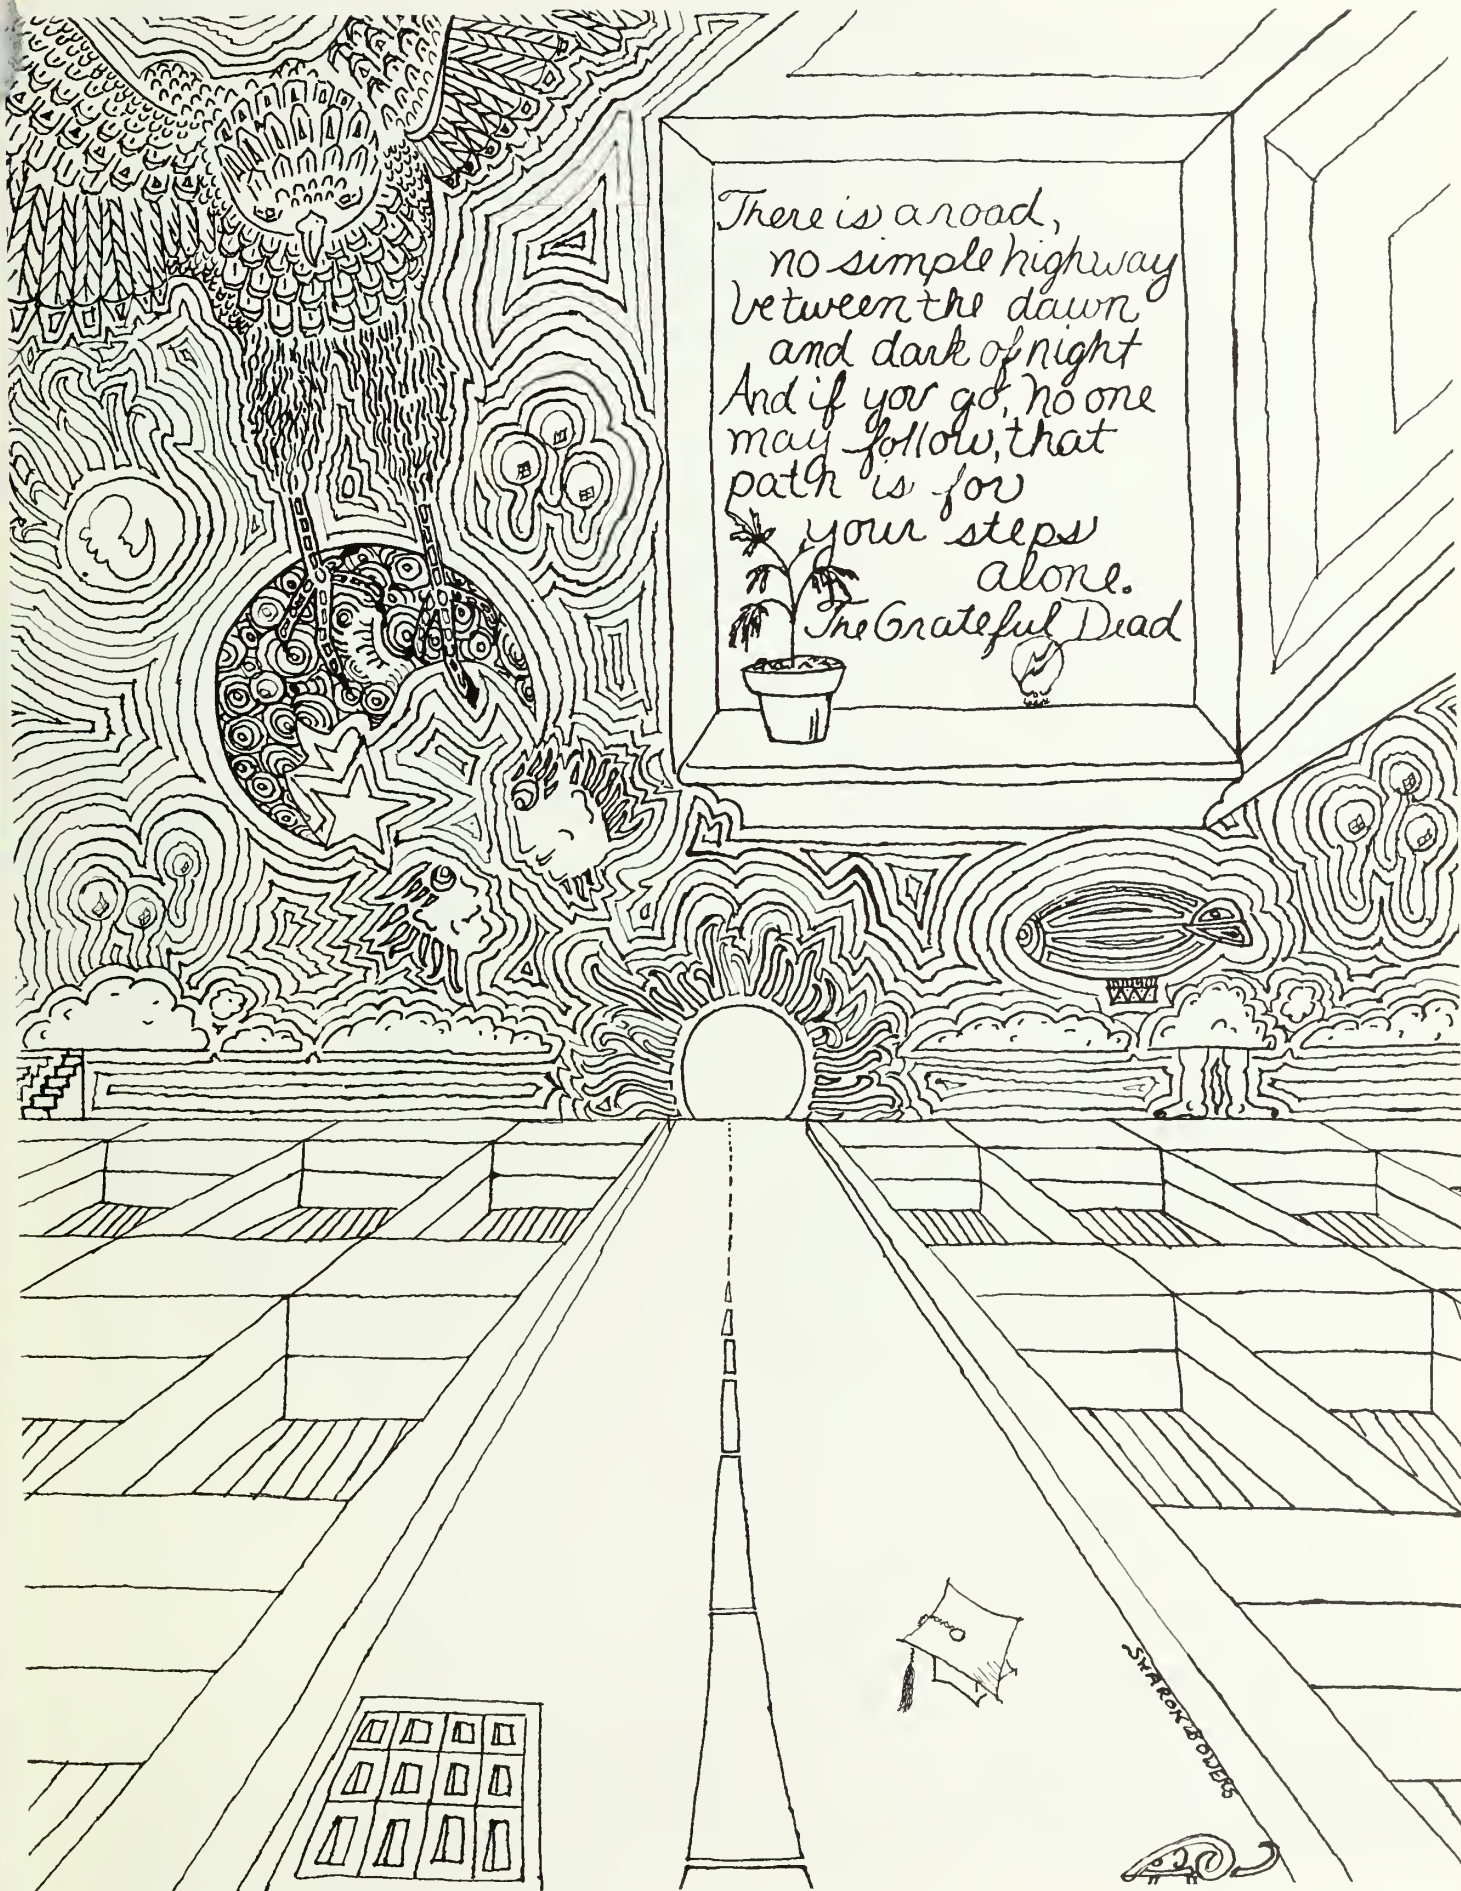

We are so fond of one another
because our ailments are the same.
Jonathan Swift

There are places I'll remember all my life
 though some have changed.
 Some forever not for better.
 Some have gone and some remain.
 All these places had their moments,
 with lovers and friends
 I still can recall.
 Some are dead and some are living.
 In my life I've loved them all.

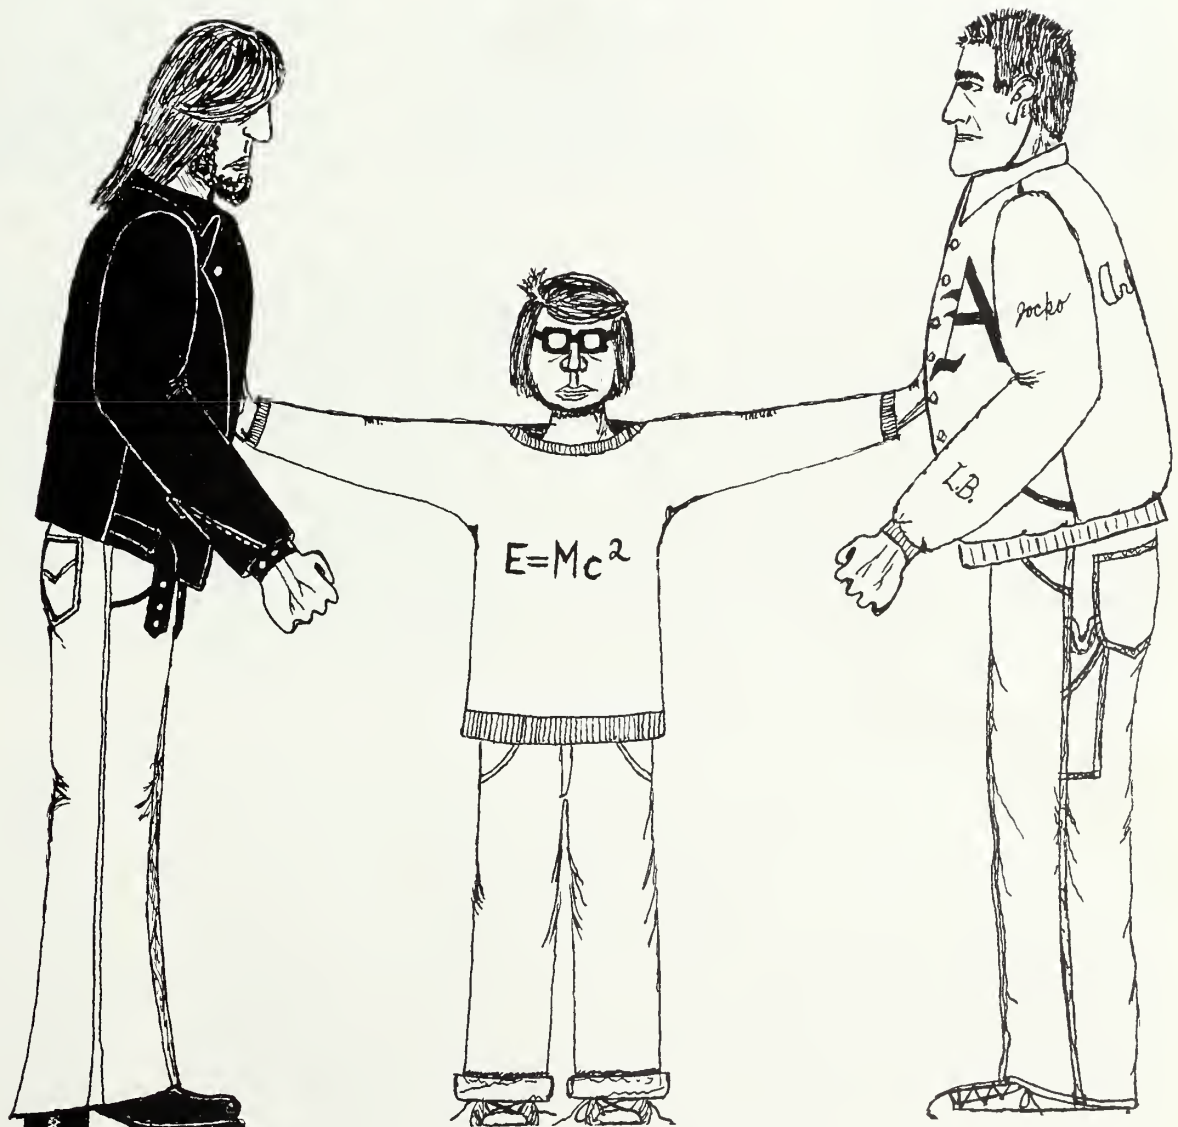

John Lennon & Paul McCartney

There is a road,
no simple highway
between the dawn
and dark of night
And if you go, no one
may follow, that
path is for
your steps
alone.

"You are a child of the universe, no less than the trees and stars; you have a right to be here. And whether or not it is clear to you, no doubt the universe is unfolding as it should. Therefore be at peace with God, whatever you conceive him to be, and whatever your labors and aspirations, in the noisy confusion of life keep peace with your soul. With all its sham, drudgery and broken dreams, it is still a beautiful world. Be careful. Strive to be happy.

I T A L I A N

A R M E N I A N

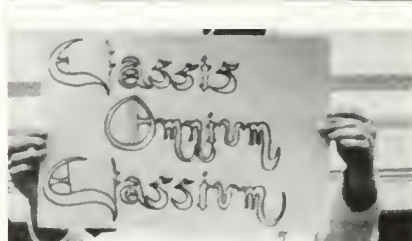

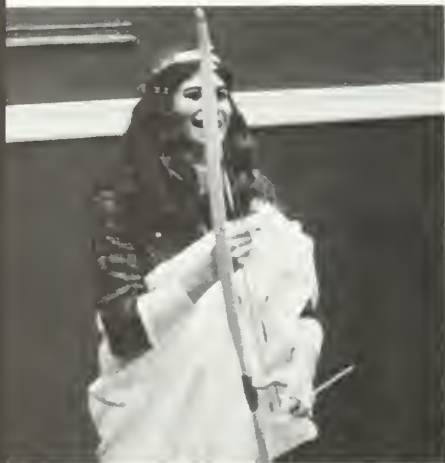

Oh to walk my way with kindness,
And not betray my life to a cloud of suspicions . . .
How I wish that someone would believe me,
How I wish that I could believe someone.

To triumph in an unequal battle,
To embrace with love both small and big,
How I wish that someone would believe me,
How I wish that I could believe someone.

Let the silence burst forth with fury,
And the eternal noise die down for good . . .
How I wish that someone would believe me,
How I wish that I could believe someone.

A Farewell Tribute

In the thick heavy shadows of tangled green elms
Does a fading bronze statue kneel at rest.
Streaked by bold winds of swift changing seasons,
Reflecting dull beams of tarnished cool light

How could this red-faced man, so potent with pride
Have roamed and ruled in dusty days past,
When now there lies this lifeless old image
Anchored within a place of retreat?

Time, nimble time, did elude the Indian's grasp -
Stole his fate and fluttered away.
Dormant with sorrow, weighted and still,
He hardened like stone, bloodless and cold.

And still does time hover above us.
Four years and a school will soon slip away.
Like the spirit of the aging symbol.
Farewell to a statue, a legend, a friend.
